HOME AND SCHOOL COMMUNICATION AND SUPPORT

Teacher E-Mail Addresses : All teachers at this school have been issued e-mail addresses.

Online Homework Information: A portion of the school's website is devoted to homework pages.

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

The following narrative was submitted by this school. The Integrated Day Charter School was founded on parent involvement. The school believes that parents and caregivers are the children's first teachers. They are an integral part of the education process. Parents and caregivers are represented on the Board of Directors, the Foundation, School Council and the Integrated Day Education Alliance. Parents and caregivers are encouraged to volunteer in classroom regardless of whether their child is in that classroom or not. Students complete research projects that parents and caregivers can serve as experts in their field. Parents and caregivers are involved in arranging after school activities, annual fundraising events, serving on the interviewing committee for hiring, and mentoring new parents. At the annual open house, parents and caregivers volunteer to act as guides around the school and are available to answer questions that prospective parents may have. Parents can bring their concerns, discuss curriculum or make suggestions to improve the school. Parents and caregivers have often stepped into leadership roles, volunteered to assist with morning and afternoon outside duties, established networks with community members, and have assisted in various other ways. A unique aspect of the IDCS school community is the summer home visit. Teachers visit each home and discuss the goals for the year and the mission and vision of the school. A weekly on-line newsletter is sent home to parents and caregivers. The newsletter announces upcoming events, school news, reviews policies, offers suggestion how to assist their children at home, and general information about the school. Voicemail is available to every family at the school. Parents may also use email which has become preferred over voicemail. It is a goal of the IDCS that families are valued as an integral component of the education process. At the end of the year, surveys are sent out to collect data towards the goal. The IDCS was a Reading First school. Literacy works are held throughout the year to inform parent and caregivers about how a child learns to read and what can be done to assist the process. Meetings are scheduled to address academic concerns that parents may have.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds. The Integrated Day Charter School continues to make efforts to reduce racial, ethnic and economic isolation. Operating under the constraints of charter school admissions legislation, students are admitted by date of application from a waiting list. Pre K students are admitted by a lottery system. Subsequently, there is no means to expand the diversity at the school. Nonetheless, the school’s brochure is translated into Spanish, Haitian and Chinese and made available at several locations. Brochures and applications are available at the public library in Norwich and the NAACP. Brochures are made available and posters are displayed at all Norwich Public Schools. Our diversity rate has increased within the last two years. An open house, which is announced through the newspaper and cable television, is held annually in the spring for any interested parents/caregivers. A relationship with the local chapter of the NAACP has been established. A legislative breakfast was held last year and one is scheduled for the 2010 - 2011 academic year. Members of the community are given tours of the school and there is an information and outreach effort. Teachers from local schools are also invited. This year middle school students with their teachers made visits to each other schools. IDCS will continue to share best practices and to build relationships. Diversity in the teaching staff has included interns from varying racial and cultural backgrounds. Over the years interns from Uruguay, Senegal, Peru, Germany, Spain, and Russia have worked with students at the IDCS to introduce world languages and provide exposure to various cultures. A Multicultural Fair is held on alternating years. This year artistic residencies focused on multicultural opportunities with an emphasis on diversity. Master Teaching Artists, Efraim Silva and Sanna Stanley conducted two three week residencies, culminating in an evening of original performances. IDCS also participated in an interdistrict grant, Legacy, which focused on racial equity and interdistrict team building.

Disciplinary Offenses

Disciplinary offenses committed by students include all serious offenses, offenses involving drugs, alcohol, or tobacco, and all incidents resulting in suspension or expulsion. In the 2008-09 school year, 4 students were responsible for these incidents. These students represent 1.2% of the estimated number of students who attended this school at some point during the 2008-09 school year.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this school.

The following narrative was submitted by this school. A new mathematics text/program has been used by grades K – 6. Math assessment will be aligned to the new math program and guided by the new SDE model math curriculum. Teachers, grades preK-8, will also frame grade level checklists, pre- and post tests, a problem solving assessment, and investigate individual “interview” based assessment. The language arts curriculum was reviewed this school year. Teachers identified the need to continue addressing the language arts curriculum and to align it with the SDE frameworks. Teachers reviewed the frameworks and revised the current curriculum for all grade levels. On going professional development was scheduled throughout the school year culminating with a week’s curriculum development work during the summer. Teachers at this time completed the language arts curriculum. Professional development has been scheduled to share the new curriculum with grade level teachers. The Integrated Day Charter School identified “peace” as its overarching theme for the year. During home visits over the summer, teachers will recruit parents for the Integrated Day Educational Alliance, our parent-teacher organization. With the theme in mind, teachers, staff and parents will meet to set up activities for the year. At the first IDEA meeting, parents will be able to sign up to work on different committees throughout the year. On the second Tuesday of the month, parents have the opportunity to meet with the director to discuss school topics; parking lot safety to foreign language instruction have been discussed. The inclusion model is used to deliver special education services at the IDCS. There are two full time special education teachers at the school. Over the past year, a consultant from the SDE met with the special education team to discuss special education policy and procedures. Out of this meeting, professional development for the entire staff was planned. The presentation will review what inclusion looks like in the classroom and paraprofessional’s responsibility.
